

# Overdose Prevention Site

APRIL 1<sup>ST</sup> 2019 – MARCH 31<sup>ST</sup> – 2020

## *Some OPS Statistics:*

- 1296 Individual site uses.
- 1 overdose
- 0 deaths
- Countless volunteer contributions
- Much laughter, tears, hugs, and snacks shared by all.

*Beyond holding space and navigating the complex needs of our clients, here are some of the projects and developments that have occurred in the OPS room.*

## *Collaborative Mural Project*

A project created by local artists and site users that allowed them to express what is beautiful in their lives, beyond their immediate needs and additions.

Contributions by Kelly Shpeley, Indica Moon, and Orion Kemp. (Not shown above)

## *SMRT1 Harm Reduction Vending Machine*

A vending machine that is a unique and innovative approach to harm reduction. It allows 24/7 access to harm reduction material such as syringes and Naloxone. Also provides Hygiene essentials, connections to local services, fentanyl alerts, and of course, chips.

## *Renovation of Space*

The OPS room went through comprehensive renovations. This included new floors, comprehensive painting, and privacy screens for the user booths.
